

Andrew Corsig
Deputy Vice President, State Advocacy
Pharmaceutical Research and Manufacturers of America
(PhRMA)

Andrew Corsig is the Deputy Vice President of State Advocacy for the Pharmaceutical Research and Manufactures of America (PhRMA), which represents the country's leading biopharmaceutical researchers and biotechnology companies. PhRMA's members are committed to finding tomorrow's cures and treatments for some of the most serious diseases such as COVID-19, Cancer, Alzheimer's disease, Cystic Fibrosis and Parkinson's. New medicines are an integral part of the healthcare system, providing doctors and their patients with safe and effective treatment options, extending and improving quality of life.

As a member of PhRMA's State Advocacy team, Andrew is responsible for advancing patient access to medicines and driving recognition of the value of biopharmaceutical innovation through government relations, communications, patient advocacy and market access policy activities around the country. Andrew is an accomplished leader with over 25 years of state government affairs experience, and more than 30 years of experience working in the biopharmaceutical industry.

Andrew has a BA degree in Chemistry/Business Option from the University of Richmond, and an MBA degree from Georgetown University Graduate School of Business Administration. He lives in Mount Lookout with his wife, Julie and two daughters, Margo and Kate.
