

**Dr. Ryan Marable**  
Medical Information Pharmacist  
Eversana

Dr. Ryan C. Marable is a Medical Information Pharmacist with Eversana, where he serves as a member of the Medical Communications team; serving a global pharmaceutical industry leader in the space of Monoclonal Antibody based therapies. Dr. Ryan also has over ten years of community pharmacy experience, where he proudly served as a pharmacy manager, clinical care pharmacist, and supporting staff pharmacist.

Dr. Ryan currently serves as the Immediate-Past President of the National Pharmaceutical Association (NPhA). He is the youngest member in the 75-year history of NPhA to hold this position, where he transformed and pioneered the organization to record-breaking levels during his tenure which took place during a global pandemic. In addition to his leadership in NPhA; Dr. Ryan has taken his problem-solving talents to a new space, serving as a founding Board Member to the upstart philanthropic group; The Equity in Heart Transplant Project, which strives to create more equitable access for historically marginalized populations to heart transplant and associated services.

Dr. Ryan is a 2013 graduate of the James L. Winkle College of Pharmacy at the University of Cincinnati and has committed his personal and professional life to championing Health Equity. His major extracurricular focus area is on underrepresented community populations through high level service leadership.

Dr. Ryan has been formally recognized for his professional and community involvement as the recipient of numerous honors, including the Kroger Distinguished New Pharmacist Award, University of Cincinnati African-American Alumni Affiliate Rising Star Award, the NPhA Young Pharmacist of the Year Award, and his most coveted acknowledgement to date; the James L. Winkle College of Pharmacy Graduate of the Last Decade (G.O.L.D.) Award.

In his “free time”; Dr. Ryan enjoys spending time and making memories with his wife Ashleigh and their two children Fox and Drew.
